Notes

This is a very easy pattern, suited for beginners as well as more experienced knitters alike, looking to add some colour to their winter gears!

Gauge is not very important - a larger gauge will give you a wider scarf, and a finer gauge will give you a narrower one. As long as you're satisfied with the width, all is good!

When switching colours at the end of a row, simply cut the working colour, leaving about 3-4" tail for weaving, and join new colour, also leaving a 3-4" tail. You may tie them together with a loose knot (or two) if you desire - you can easily undo the knot later when weaving, or simply leave it if you find it doesn't show much.

For general help with any skills, visit www.knittinghelp.com - they have extensive explanations, as well as videos for both Continental and English style. It's truly an online knitting bible!
